

ITAFOS ANNOUNCES BORROWING OF CONVERTIBLE UNSECURED SUBORDINATED DEBT IN THE AMOUNT OF US\$15,000,000

TORONTO, ON – September 11, 2019 – Itafos (TSX VENTURE: IFOS) (the “**Company**”) announced today that it has borrowed US\$15,000,000 from CL Fertilizers Holding LLC (“**CLF**”) in the form of convertible unsecured subordinated debt. The debt is evidenced by an unsecured and subordinated promissory note issued by the Company in favor of CLF in the principal amount of US\$15,000,000 (the “**CLF Promissory Note**”).

The proposed CLF Promissory Note is subordinate to the Company’s existing senior credit facility and subject to the terms of subordination incorporated thereunder. The CLF Promissory Note has an interest rate of 15% per year and is payable on demand no earlier than six months after the date on which the Company’s existing senior credit facility is paid in full. The interest is added to and increases the outstanding principal balance of the CLF Promissory Note on a quarterly basis. The proceeds of the CLF Promissory Note are expected to be used to fund the general working capital and capital expenditure needs of the Company and its subsidiaries. The outstanding principal and interest under the CLF Promissory Note will automatically convert into shares of the Company in connection with any future equity issuances through which the Company raises US\$7,500,000 or more in cash (an “**Equity Issuance**”).

Upon an Equity Issuance, the outstanding principal amount of the CLF Promissory Note will be converted into the number of shares of the Company at the conversion price equal to the greater of (a) the volume-weighted average price of each share received by the Company in connection with such Equity Issuance and (b) the market price of the shares of the Company as of the date of the CLF Promissory Note. Also upon an Equity Issuance, the accrued and unpaid interest owing on the CLF Promissory Note as of the date of such Equity Issuance will be converted into the number of shares of the Company at the conversion price equal to the greater of (a) the volume-weighted average price of each share received by the Company in connection with such Equity Issuance and (b) the market price of the shares of the Company as of the date of such Equity Issuance.

CLF is a “related party” to the Company under Multilateral Instrument 61-101 *Protection of Minority Security Holders in Special Transactions* (“**MI 61-101**”) by virtue of its shareholding being in excess of 10% of the Company’s issued and outstanding share capital. Accordingly, the issuance by the Company to CLF of the CLF Promissory Note constitutes a “related party transaction” under MI 61-101. The issuance of the CLF Promissory Note by the Company to CLF is exempt from (i) the formal valuation requirements under Section 5.4 of MI 61-101 pursuant to Subsection 5.5(b) of MI 61-101; and (ii) the minority approval requirements under Section 5.6 of MI 61-101 pursuant to Subsection 5.7(1)(a).

The CLF Promissory Note, and any shares into which it may convert upon an Equity Issuance, are subject to resale restrictions in accordance with applicable law, including a four month hold period in accordance with TSX Venture Exchange policies.
